## Chapter 1. Extension number1

### 1.1. Basic information

The extension to be validated consists of the time series from the data1 to the 127. The status of the validation is: COMPLETED.

The number of estimations needed to perform the validation was1000.

### 1.2. Estimated parameters with their intervals

It was necessary to fix 0 parameters of 11 that could be fixed to complete validation.

Due to a deviation from the median the CSB method was activated to obtain the parameter intervals.

## Chapter 7. Extension number7

### 7.1. Basic information

The extension to be validated consists of the time series from the data296 to the 316. The status of the validation is: COMPLETED.

The number of estimations needed to perform the validation was1000.

### 7.2. Estimated parameters with their intervals

It was necessary to fix 0 parameters of 10 that could be fixed to complete validation.

Due to a deviation from the median the CSB method was activated to obtain the parameter intervals.

## Chapter 14. Extension number14

### 14.1. Basic information

The extension to be validated consists of the time series from the data555 to the 596. The status of the validation is: COMPLETED.

The number of estimations needed to perform the validation was1000.

### 14.2. Estimated parameters with their intervals

It was necessary to fix 0 parameters of 10 that could be fixed to complete validation.

Due to a deviation from the median the CSB method was activated to obtain the parameter intervals.

## Chapter 15. Extension number15

### 15.1. Basic information

The extension to be validated consists of the time series from the data596 to the 717. The status of the validation is: COMPLETED.

The number of estimations needed to perform the validation was1000.

### 15.2. Estimated parameters with their intervals

It was necessary to fix 0 parameters of 10 that could be fixed to complete validation.

Due to a deviation from the median the CSB method was activated to obtain the parameter intervals.
